

Objective: Create an Angular project that will contain a HIPAA grid using mock data as shown below:

PATIENT CONSENTS				
HIPAA				
STATUS	HIPAA SIGNED	HIPAA EXPIRES	ATTACH / VIEW	EDIT / DELETE
Active	04/24/2021	04/06/2022	 	 
Active	06/24/2021	06/24/2022	 	 

Details:

- Theme (colors/sizing) does not have to be followed. Focus on component's functionality. Preferable if you can use the following libraries for elements:
 - AG Grid (<https://www.ag-grid.com/angular-data-grid/>)
 - Ant Design of Angular (<https://ng.ant.design/components/overview/en>)
- The Green Plus Button will open an Add modal:
 - Once filled, it will populate a row in the grid.

A modal window titled "Add New HIPAA Consent" with a close button (X) in the top right corner. It contains two input fields: "SIGNED:" with the value "09/30/2021" and "EXPIRES:" with the value "09/30/2022". Each input field has a calendar icon to its right. At the bottom, there are two buttons: "SAVE" (green) and "CANCEL" (gray).

- The Edit Icon will open an Edit modal:
 - Once edited, it will change the displayed row in the grid

An "Edit HIPAA Consent" modal window with a close button (X) in the top right corner. It features two input fields: "SIGNED:" with the value "09/30/2021" and "EXPIRES:" with the value "09/30/2022". Each input field has a calendar icon to its right. At the bottom, there are two buttons: "SAVE" (green) and "CANCEL" (gray). Below the modal, the text "Billing Information Only" and the date "06/11/2021" are visible.

- The Delete Icon will ask for confirmation:
 - Once confirmed, it will remove a row from the grid
- The Attach Icon will open a file selection dialog
 - <https://ng.ant.design/components/upload/en>
- Icons will have tooltips

Bonus task:

- The View Icon will let you view a dummy document (PDF) or picture (JPG)
